

CH410/411 CHILDREN'S FURNITURE

MADE BY BY CARL HANSEN & SON

Peter's Chair is a design classic and an ideal gift for small children. Sturdy and safe, it's made from four pieces of wood that can be assembled and disassembled again and again – no tools are necessary. That makes the chair functional, plus, it's a great toy. Peter's Chair was designed by Wegner as a present for the baby son of Wegner's friend and colleague Børge Mogensen. In the war years quality furniture was hard to find – so he made his own. The chair is designed to accompany the CH411 table. Designed by Hans J. Wegner in 1944.

Dimensions

Chair: 16.5" W x 12.6" D x 18.5" H. Table: 28.3" W x 17.7" D x 18.1" H
