## HOLLACE CLUNY

## **LAVA LIGHT**

## **MADE BY BY ANNA KARLIN**

An exploration between natural forms and precision of the man made, this light is a visual interpretation of that tension that exists in our everyday. Each volcanic lava boulder and steel curve is 3d scanned in order to perfectly carve out a path in which they can intersect, furthering the play between the natural and technological intervention. The curve exterior is finished in a rich warm black and the interior is finished in a light antique brass.

**Dimensions** 

26"W x 26"D x 78"H

**Material Options** 

Steel / Lava Rock / Acrylic / Brass

Lamping

24v LED strips, 2700k, 5 watts/foot, 519 lumens/foot, 83 CRI / Dimmable
