

14 SURFACE MOUNT

MADE BY BY BOCCI

14s is a surface mounted light fixture with a 2.2" (55mm) diameter mounting plate designed to be mounted on walls and ceilings. Please note, the 14s does not attach directly to a junction box and requires the power supply (driver/transformer) to be remote mounted. The minimum amount of power supplies to power the ordered quantity of fixtures will be provided unless otherwise specified.

14sp has a paintable 4.5" (115mm) diameter mounting plate designed to be mounted on walls and ceilings, directly to a standard junction box (not included). The power supply is integrally mounted.

14s and 14sp have an IP65 designation meaning that they can be used outdoors and in other wet environments.

Each pendant comes with either a 10-watt xenon or 1.5-watt LED lamp and power supplies as specified above.
