

## ANGLE SCONCE

**BY ATELIER DE TROUPE**

The ANGLE is a sculptural wall light in cast aluminum. A sweeping arc of light is carved into the face of the fixture bringing balance to its brutalist form.

The casting is finished to a smooth texture and is available in matte silver, bronze, gold or black finish, and is wet rated for the outdoors. Each casting is manufactured in small batches meaning slight variations will occur from piece to piece. Production marks may include slight pour ripples or surface pitting.

### **Material Options**

Blackened Aluminum, Brass, and Silver finish.

### **Lamping**
