

## BOCCI 38V

**BY BOCCI**

38V is a variant of the original 38 series where a large glass sphere is blown with a multitude of haphazard interior cavities, which intersect and collide in unpredictable ways. 38V is smaller, lighter and suspended with coaxial cables. The interior cavities can be filled with plants or left empty.\*\*

\*\*Neither Bocci nor Hollace Cluny supply plants.

### **Dimensions**

Dimensions vary based on configuration.  
See entire collection overview [here](#).

### **Material Options**
