

CH468 OCULUS CHAIR

BY CARL HANSEN & SON

The chair is known as "The Oculus." The chair's round, roomy upholstered back and large armrests provide a comely contrast to the lightweight stainless steel legs. In and of itself the chair can form the centre of attention in any living room but it also functions well in groups. Designed by Hans J. Wegner in 1960 and put into production in 2010, the chair is available with the CH446 footrest.

Dimensions

37"W x 37"D x 41.5" H, Seat Height: 16"

Material Options

The chair is available upholstered in leather or fabric.
Available in stainless steel legs.
