

CINI BOERI SOFA

BY KNOLL

Paying particular attention to how people use lounge seating, Cini Boeri designed her third lounge collection for Knoll to deliver multiple sitting zones — bench-like support near the seat front, and relaxed comfort as one moves into the piece. The collection harmonizes generous proportions and sleek lines to deliver a modern solution for today's more expansive interiors. The sofa is supported on a metal chassis with optional casters for easy movement and increased flexibility.
