

## DECADE PENDANT

**BY ATELIER DE TROUPE**

The Decade is a solid brass pendant made with the lost wax casting technique by a local foundry. It is reminiscent of the California architecture of Rudolf Schindler and that of the Bauhaus. Indoors or outdoors, wired with a twisted natural or black cloth cord, the Decade will age like a precious gold artifact. It is also available in a silver patina. The Decade can be ceiling mounted with a square canopy in raw brass, wall mounted with a blackened steel bracket, or paired with our solid steel floor stand.
