

DENEK DESK

BY DE LA ESPADA

Deneb, one of the brightest stars, lies in the northern constellation of Cygnus and, along with stars Altair and Vega, forms the Summer Triangle asterism.

Appearing to defy gravity, Deneb has a striking form that challenges traditional notions of desk design, embracing an innovative triangular motif that evokes a sense of energy and movement in a functional piece. The playfulness of angles and lines reflects a deliberate intention to infuse life and excitement into this typology of furniture. The desk can be specified as a left or right hand orientation, according to the placement of the two drawers. It pairs well with the Altair Chair or the Vega Chairs
