

## DIMPLE LAMP

**MADE BY BY ANNA KARLIN**

Dimple explores the idea of dependency and support in both an emotional and physical sense represented in this piece by the inherent material qualities of glass, metal and marble. Whilst the glass is still hot and in the hand blowing stage, an impression is made in the glass oviform allowing the carved marble sphere to nestle in the resulting dimple. The assemblage rests on a brass cube with a hand antiqued finish.

### **Dimensions**

15"W x 10"D x 13"H

### **Material Options**

Glass / Brass Plated Steel / Portuguese  
Pink Marble

### **Lamping**

G9 LED Bulb / Dimmable
