

## E42 TABLE

**BY IMPERFETTLAB**

Two discs play along with the size of the cylinder that holds them together, bringing them closer together or further apart. A tabletop which deceives the eye as it appears to be balancing on a base that supports it with strength. A combination of elements that gives birth to an unusual side table and a modern dining table of refined beauty.

### **Dimensions**

E401 - 22.0" D x 33.9" H
