

EOS SCONCE

BY CROSLAND & EMMONS

Hand-sculpted from white stoneware, the Eos Sconce embodies quiet elegance and sculptural beauty. Its elongated, tubular form is stacked with a second ceramic piece, allowing light to softly escape through the connecting seams—creating a gentle, glowing rhythm of illumination. The body is finished in a velvety chalk-white glaze, while glossy white flora adornments catch the light, adding subtle contrast and organic texture. A study in balance, Eos is both light and sculpture—radiant, refined, and timeless.
