

LIBRARY CEILING LAMP

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space. He claimed his lighting fixtures were "a reaction to the Italian models, which were beginning to invade the market in 1950," and which he thought to be "too complicated."

Originally designed to illuminate bookshelves in a library, this unique lamp may also light works of art or highlight a particular area in a room. The pivoting lamp shade works well alone or in grouped installations.

Dimensions

15" W x 7 1/2" D x 39" H

Material Options

Finishes: Black or white

Lacquered aluminium and steel with brass ball joints

Each lamp is stamped and numbered
