

LUNA LIGHT LARGE & SMALL

MADE BY BY ANNA KARLIN

Based on the rare moments where a process called Rayleigh scattering gives the moon a magic rose glow this lamp designed to capture that moment. An antique brass half cylinder shell holds a hand blown acrylic sphere and cylinder. These are then hand finished to give them a rose alabaster glow.

Dimensions

Large: 72"W x 22.5"H, Globe: 18" Diameter

Small: 32.5"W x 10"H, Globe: 8" Diameter
