

LUNA SCONCE WITH GLASS BEADS

BY GABRIEL SCOTT

A lighting system with infinite interpretations, the LUNA is a synergy of color, shape, and refracted light. Inspired by a lunar halo, the modular light fixture grows in every direction as its assembly system stems horizontally or vertically, stacking color upon color of various blown glass shapes. The LUNA series is a glamorous reference to the moon's diffused light and soft glow. Allusive yet glamorous, the LUNA is a new tradition in glass-work and light form. Available in a variety of colors and shapes, LUNA is a highly customizable fixture.
