

MR01 OUTDOOR CHAIR

BY GUBI

GUBI presents the MR01 Initial Outdoor Lounge Chair by Mathias Steen Rasmussen – A natural nomad moves outside. With its low-slung wooden frame and nautically evocative rope seat and backrest, Mathias Steen Rasmussen's breakthrough MR01 Initial Lounge Chair has begged to be taken outside since its creation. Two years after launch, Rasmussen and GUBI have responded to demand and developed a new variant in iroko wood, specially constructed for use outdoors. Rasmussen conceived the MR01 as a lounge chair that could be used while meditating – a comfortable, gently inclined, low lounge seat in which one could relax, feet to the floor, and relish the calming sensation of floating while remaining grounded. The lightweight chair was always intended to be versatile and nomadic, traveling easily around the home as the user wishes.

Dimensions

WIDTH 65 cm / 25,59 in
