

ROWLANDS BEDSIDE TABLE

MADE BY BY SPEKE KLEIN

The Rowlands family of designs celebrates solid wood. The organic beauty of wood's natural graining and subtle colour changes is showcased throughout. Speke Klein's careful attention to detail, such as the precision finger-jointing, carefully beveled edges and studied proportions, brings everything together in a unified whole. This table features both open and hidden storage and would be a useful addition to a living room or bedroom.
