

## SHALE MIRROR

**BY SIMON JOHNS**

Bringing the serenity of the outdoors into the home, the Shale mirror has a distinct texture carved across the frames surface that seems to reach beyond it's limits. Patterns within the carving and the wood's grain create optical illusions depending on the lights orientation, making it as striking from afar as from up close. The shale mirror is wall mounted. The solid ash surface is scored vertically across the grain and then hand carved to create the texture.

### **Dimensions**

Standard: 44"H x 36"W x 2"D

### **Material Options**

Glass, hand carved solid black or grey Ash.
