

SOFFIO TRANSPARENT PENDANT

BY GIOPATO & COOMBES

Soffio is a lamp of simple and elegant design, characterized by the contrast between the evanescence of one blow that generates the sphere of glass and the solidity of the structure that supports it: as light as a soap bubble, the sphere floating in the air, surrounds the light source. It's just one blow, but it has to be perfect! Heart and structure of the project, the LED source, an high-quality technology extremely efficient, that emanates a warm and suffused light, in contrast with the minimal shape of the lamp.
