

## TS COLUMN - DINING TABLE

**MADE BY BY GUBI**

With TS Collection, the design duo GamFratesi has proven that a strong design idea can hold a wealth of development possibilities. GUBI is proud to present its latest additions - the TS Column Bar Table, Dining Table and Lounge Table.

The TS Column Table is with its characteristic slender metal legs and crossing detailing, unified to a centred column, a decorative table specifically designed for the outstanding restaurant Flora Danica at Maison du Danemark in Paris. As this magnificent space, the table represents Scandinavian minimalism with global gracefulness. The TS Column Table sets the frames for intimate dining, socialisation and moody atmosphere where focus is put on authentic material choices and well-performed craftsmanship.
