

## **WAVE DINING TABLE**

## **BY TOM FAULKNER**

The Wave dining table is artistic, playful, and elegant. Its sleek, uninterrupted lines reflect the precision of expert craftsmanship, producing a piece that's entirely devoid of welding marks. Each steel base is meticulously hand-rolled to form a dynamic Wave. The base is then finished in-house in your choice of standard or hand-painted specialist option. We'd suggest a lustrous, metallic finish to amplify its striking, fluid form. The transparent glass top beautifully reveals this sculptural dining table's graceful curves, inviting admiration from every angle.
